FOR IMMEDIATE RELEASE

PRESS RELEASE

Execulink Expands Fibre to the Home Services to Port Dover

Woodstock, ON – April 25, 2018 – Execulink Telecom is excited to announce that they are delivering Fibre to the Home to the town of Port Dover, with installations beginning in the fall. Once complete, this project will give homes and businesses access to lightning-fast Internet, crystal-clear TV and reliable Home Phone solutions.

The telecommunications company recently purchased a small piece of land on St. George Street in Port Dover to house their C.O. (Central Office) which will act as the hub for all Fibre activity to the town. A storefront is also anticipated to open at 511 Main Street (in the Esso gas station plaza) this summer; the store will allow the company to stay closely involved in the community and be locally available when needed. An official grand opening is still to be announced.

Ian Stevens, President and CEO of Execulink Telecom.

Fibre to the Home is the delivery of a communications signal over optical fibre. In comparison with other methods of delivery, Fibre's underground infrastructure is unaffected by weather and allows for reliable TV and Phone services, with the fastest Internet speeds in Ontario. Fibre Internet can deliver speeds up to 1Gbps (1000Mbps), this means that customers can stream their

favourite shows, chat with family and friends, plus play video games online at the same time, with multiple people connected!

“We understand the needs of our customers and our goal is to ensure that they stay connected to what matters most,” said Ian Stevens, President and CEO of Execulink Telecom. “We believe that an awesome telecom experience starts with being present in and supporting our local communities!”

Execulink Telecom has been servicing Norfolk County for over 20 years and continues to bring Fibre to neighboring communities in the area. Residents are encouraged to call 1-866-765-2282 to sign up and see when they can get their service activated.

About Execulink Telecom

In operation since 1904, Execulink Telecom has evolved from a small independent local telephone company into one of the leading telecommunications providers in Ontario. Through innovation and forward-thinking, we cultivated our local telephony offerings to provide a full-scale suite of telecommunications services including data, internet, television, mobility and advanced voice features. These services are now available to all levels of industry, encompassing 50,000 business, enterprise, government, and residential customers.
