

Execulink Telecom to Bring Fibre Network to Strathroy

(Woodstock, ON) August 17, 2023 – Execulink Telecom announced plans to bring their Fibre services to all homes and businesses in the town of Strathroy, with installations now open. Once the project is complete, customers will have access to lightning-fast Internet, crystal-clear TV and reliable Home Phone solutions.

Ian Stevens, President and CEO of Execulink Telecom says, “We are proud to have serviced Strathroy as an Internet Service Provider for over 25 years and Fibre in local neighbourhoods since 2019. Strathroy’s small urban progressiveness is part of our goal to build connected communities and is another excellent choice for introducing new technological advancements that have become even more in demand in recent years,” said Stevens. “Our mission is to bring residents and business owners the superior telecom experience they deserve and improve the day-to-day lives of the local growing community with our Fibre services.”

Fibre is the delivery of a communications signal over optical fibre. In comparison with other methods of delivery, Fibre’s underground infrastructure is unaffected by weather and allows for reliable TV and Phone services, with some of the fastest Internet speeds in Ontario. Customers can look forward to enjoying blazing-fast Internet speeds up to 1 Gbps.

Construction began last March to service businesses and homes in the north east end of town and the company is working to develop maps and timelines for the rest of the town with installations having just begun. Additionally, a Strathroy office at 39 Front St. E. is expected to open this fall.

Execulink Telecom has been servicing the community for over 25 years and looks forward to bringing Fibre to more local Ontario communities in the future. Residents are encouraged to call 1-866-765-2282 to sign up. For more information, please visit fibre.execulink.ca.

About Execulink Telecom In operation since 1904, Execulink Telecom has evolved from a small independent local telephone company into one of the leading telecommunications providers in Ontario. Through innovation and forward-thinking, we cultivated our local telephony offerings to provide a fullscale suite of telecommunications services including data, internet, television, mobility and advanced voice features. These services are now available to all levels of industry, encompassing 50,000 business, enterprise, government, and residential customers.
