

Day 10 of Gifts of Christmas: Execulink Donates to Bosanquet Central PS Nutrition Program

(Woodstock, ON) December 22, 2025 – Execulink Telecom is pleased to launch its eighth annual *Gifts of Christmas* campaign, featuring donations throughout the month of December to local charities and community initiatives across the regions we serve.

On the tenth day of giving, we are proud to support Bosanquet Central Public School's Nutrition Program! This program provides healthy snacks daily to students but relies solely on donations and fundraising. When funds are low, snack availability is limited, impacting the children's nutrition and well-being. Supporting this program would help maintain consistent access to nutritious food for the students. Find out more here: [Bosanquet Central Public School](#).

The *Gifts of Christmas* donation program began in 2018 with the goal of supporting local charities and strengthening community connections. With this year's contributions, Execulink will have supported a remarkable 84 local organizations, charities, and non-profits through this initiative. The program has made a meaningful impact, bringing joy not only to recipients but also to the broader communities they serve. Inspired by this continued positive response, Execulink remains dedicated to carrying this tradition forward. For full details, please visit the official [Gifts of Christmas webpage](#).

Ian Stevens, President/CEO of Execulink Telecom, shares: *"I am thrilled to announce the return of our cherished 'Gifts of Christmas' program for the eighth consecutive year. This initiative reflects our commitment to spreading joy and making a meaningful difference in the communities we serve."*

About Execulink Telecom

In operation since 1904, Execulink Telecom has grown from a small independent telephone company into one of Ontario's leading telecommunications providers. Through innovation and forward-thinking, Execulink has expanded from traditional telephony to offering a full suite of telecommunications services, including data, internet, television, mobility, and advanced voice solutions. These services are available across all sectors—supporting more than 50,000 business, enterprise, government, and residential customers.
