

Execulink Telecom Introduces Wi-Fi 6 Router for Internet Users

(Woodstock, ON) January 23, 2024 – Execulink Telecom, an industry leader in connectivity solutions, is thrilled to announce the launch of a Wi-Fi 6 router as part of their Complete Wi-Fi solution. This mesh Wi-Fi system will offer optimal coverage, speed and performance up to 2.5Gbps.

Key features:

- **Advanced Wi-Fi 6 Technology:** The latest Wi-Fi 6 standard offering exceptional speed, tri-band technology, intelligent functions such as auto selecting the best network frequency, eliminating the impact of network disturbances and seamless roaming as you move around your home.
- **Mesh Capability:** Extend your network to those hard to reach areas using a Mesh Wi-Fi Beacon to ensure optimal coverage in every room.
- **User-Friendly App:** Simplify setup and management effortlessly with the Nokia WiFi app, putting control at your fingertips.

“We are excited to bring our customers the Premium Wi-Fi 6 Beacon, a router that meets the demands of modern connectivity and reflects our commitment of providing reliable Internet and Wi-Fi services”, says Ian Stevens, President and CEO of Execulink Telecom. “This router offers our customers the best experience in their home because of its powerful features, mesh capabilities, an intuitive app, and simply does a great job of cutting through all the network noise.”

The Premium Wi-Fi 6 Beacon is available for a monthly rental price of \$9.95 and Mesh Wi-Fi Beacons to extend your Wi-Fi coverage can be added for \$5.95 each per month – available on current plans up to 1Gbps.
