

Execulink 120th Anniversary Tour Stop in Thedford

(Woodstock, ON) July 22nd, 2024 – Execulink Telecom marked a significant milestone in its 120th anniversary tour with a festive celebration at their Thedford office. The event, held on Friday, July 19th was a delightful occasion that brought together community members to honor Execulink's local history and commitment to innovation.

Attendees enjoyed complimentary pierogis provided by the Pierogi Queen, adding a delicious touch to the festivities. The event also featured an engaging history of technology display, showcasing the evolution of telecommunications and Execulink's role in driving advancements in the industry.

Execulink has been an integral part of the Thedford area, when it was originally established in 1908 as The Thedford, Arkona and East Lambton Telephone Company. Over the years, the company has evolved and expanded, continuing to provide exceptional service and cutting-edge technology to its customers.

Ian Stevens, CEO of Execulink Telecom, expressed his gratitude and pride in a statement: "Celebrating our 120th anniversary in Thedford is a special moment for us. This community has been a cornerstone of our journey, and we are thrilled to share this milestone with our valued customers and friends. Our commitment to delivering innovative and reliable telecommunications services remains as strong as ever."

The anniversary tour continues with the grand opening of Execulink's Strathroy location on July 24th. They invite residents to come tour the new office space, enjoy treats and hear a speech from Ian Stevens.

About Execulink Telecom

In operation since 1904, Execulink Telecom has evolved from a small independent local telephone company into one of the leading telecommunications providers in Ontario. Through innovation and forward-thinking, the telecom provider has cultivated what began as local telephony offerings to provide a full-scale suite of telecommunications services including data, internet, television, mobility, and advanced voice features. These services are now available to all levels of industry, encompassing 50,000 business, enterprise, government, and residential customers.
