Execulink Telecom Announces Fibre Internet Now Available in East Zorra-Tavistock, South-West Oxford & Norwich Township

(Woodstock, ON) October 28, 2026 - Execulink Telecom is proud to announce that high-speed Fibre Internet is now available to residents and businesses in East Zorra-Tavistock, South-West Oxford, and Norwich Township. With the completion of this project, customers can now access reliable, high-performance internet delivered over state-of-the-art Fibre optic lines installed directly to homes and businesses.

This broadband expansion is supported by $7.43 million in funding from the Government of Ontario through the Improving Connectivity for Ontario (ICON) program, and $7.43 million in funding from the federal government, under the Universal Broadband Fund. The new Fibre network offers a range of Internet plans designed to meet the needs of households and businesses of all sizes, with speeds starting at 50 Mbps download / 10 Mbps upload and scaling up to ultra-fast packages with speeds of up to 3 Gbps download / 3 Gbps upload. These options support everything from everyday browsing and streaming to remote work, online learning, gaming, and smart home technology.

"Internet access is no longer a luxury — it's foundational infrastructure. That's exactly why the Government of Canada is working to ensure 100% of Canadian households have access to high-speed Internet by 2030," said Honourable Buckley Belanger, Secretary of State for Rural Development. "Today, we are one step closer to that goal. Through our partnership with Execulink, this investment will help create new opportunities and level the playing field for residents of East Zorra-Tailstock, South-West Oxford, and Norwich Township."

"Fast, reliable internet access will make a real difference for residents across East Zorra-Tavistock, South-West Oxford, and Norwich Township," said Matthew Rae, Associate Minister of Energy-Intensive Industries. "It will help people stay connected with family and friends, work and study remotely, access essential services, and take part in our increasingly digital economy. This investment will strengthen local communities and support economic growth for years to come."

"We are proud to bring our advanced Fibre network to the communities of East Zorra-Tavistock, South-West Oxford, and Norwich Township," said Eric Davies, VP of Sales and Marketing at Execulink Telecom. "Reliable internet access is essential today, and this completed project ensures residents and businesses have access to the fast, dependable connectivity they need to stay connected, productive, and entertained."

"Reliable, high-speed internet is something families and businesses across our rural communities depend on every day," said Ernie Hardeman, MPP for Oxford. "I'm pleased to see this investment bringing fibre internet to more people in Oxford. Better connectivity means more opportunities to work, learn, run a business and stay connected right here in our communities."

Execulink Telecom is committed to strengthening connectivity across rural Southwestern Ontario and providing exceptional customer service to the communities it serves. About Execulink Telecom

In operation since 1904, Execulink Telecom has evolved from a small independent local telephone company into one of the leading telecommunications providers in Ontario. Through innovation and forward-thinking, the telecom provider has cultivated what began as local telephony offerings to provide a full-scale suite of telecommunications services including data, internet, television, mobility, and advanced voice features. These services are now available to all levels of industry, encompassing 50,000 business, enterprise, government, and residential customers.
