

Execulink Telecom Celebrates 120th Anniversary with Third Tour Stop in Burgessville!

(Woodstock, ON) July 2nd, 2024 – Execulink Telecom is excited to celebrate the third stop on their 120th Anniversary Tour in Burgessville, a community they have proudly served since 1904. The celebration coincided with the annual Burgessville Canada Day celebration on July 1st, an event Execulink was delighted to sponsor.

The festive occasion was marked by Execulink’s participation in the Canada Day festivities, bringing joy and nostalgia to the residents of Burgessville. As part of the celebration, Execulink provided free ice cream, a "blast from the past" tech display, and exciting giveaways. The tech display showcased the evolution of telecommunications, highlighting how far technology has come since Execulink first began providing service over a century ago.

“We are incredibly honored to celebrate our 120th anniversary with the wonderful community of Burgessville,” said Ian Stevens, CEO of Execulink Telecom. “Being part of this community for so many years has been a rewarding journey, and we are grateful for the continued support and trust. Sponsoring the Burgessville Canada Celebration and sharing this milestone with the residents reflects our commitment to giving back and staying connected with the communities we serve.”

As the tour continues, Execulink looks forward to celebrating with more communities, reflecting on the past, and looking ahead to a future filled with innovation and continued excellence in service. Learn more about Execulink’s 120th anniversary and more tour stops here:

About Execulink Telecom

In operation since 1904, Execulink Telecom has evolved from a small independent local telephone company into one of the leading telecommunications providers in Ontario. Through innovation and forward-thinking, the telecom provider has cultivated what began as local telephony offerings to provide a full-scale suite of telecommunications services including data, internet, television, mobility, and advanced voice features. These services are now available to all levels of industry, encompassing 50,000 business, enterprise, government, and residential customers.
